ARCHOS

ARCHOS | 1 vision

MP3 Player

If you're a music addict, the new "ARCHOS 1 *vision*" is just the product you've waited for. Smaller than a credit card and lighter than a pack of gum, it has a playback time of over 20 hours and with a very affordable price. It comes with 4 GB* of storage space, and can display music lyrics and photos. It's the perfect music companion.

- Store and listen your favorite songs
- Play MP3, FLAC, APE and WAV music files

- Store thousands of photos[1]
- View JPEG and BMP photos

- High storage capacity (up to 4GB*) for such a tiny player
- Audio recorder to record memos

ARCHOS

Small, easy to use and a great value…

Interface
The «ARCHOS 1 *vision*» features a straightforward interface, without any useless details. Photo, video and music are reachable in just a few clicks. Speaking of which, the "ARCHOS 1 vision" features a music library displaying your files by artist, album and song title allowing even more ease of use. Just drag and drop files from your PC to the «ARCHOS 1 vision» using the standard USB 2.0 connection.

Music
The «ARCHOS 1 vision» will meet most all your music needs: a small, very reasonably priced device, featuring a 4GB* disk capacity to store more than 2,000 songs[1]. This means days of non-stop music. And with the support of the MP3 file, you're covered as this is the most popular file format. And for those with an affinity for the more exotic formats, it supports FLAC, WAV and APE files as well.

Photo
You can also clearly show your pictures on the 1.5'' color TFT screen. It's a great way to keep a handy photo album with you.

Audio Recorder
The «ARCHOS 1 vision» is equipped with a built-in microphone to let you record anything you want, instantly. From a phone number you can't write down, to a class lecture, you can record it all.
